Dinosaurs and More June 28-July 2

Enjoy a week dedicated to dinosaurs and other extinct animals! Learn of animals from the past through play, literature, crafts, songs and displays. Pretend to be a paleontologist and hunt for real fossils to take home!

Water, Water, Everywhere! July 12-16

Can you think of all the locations where water can be found? From the clouds to the oceans, explore water features and the water cycle as you listen to stories, sing songs, make crafts, float boats and even get your feet wet!

Creepy Crawlies July 19-23

Learn how creatures with 6 legs, 8 legs, or no legs at all are an important part of life on earth. Create your own insect, jump like a grasshopper, chirp like a cricket and witness the life cycle of a butterfly during this week of "bug"tastic fun!

Science on the Ground July 26-30

Young campers, ages 3-5, learn about dirt, rocks, plants and other things beneath our feet. Playing with dirt becomes a science as you make mud pies, start a rock collection, and prepare a feast for ants to watch the insects hard at work.

Earth Gone Wild July 26-30

Campers, ages 5-7, explore the "wilder" side of our planet to learn about volcanoes, earthquakes, tidal waves and extreme weather. Make an erupting model volcano, prepare for a hurricane and learn how to stay safe during a lightning storm.
