Water Wonders!

June 15 – 19, 1:30 – 4 pm

Water and life are integrally linked! Learn why water is so important to all living things during a weeklong adventure designed especially for budding scientists. Discover the changes water undergoes as it moves from one state to another and explore the many facets of water through activities, games and more.

Kitchen Science

July 13 -17, 9:30 am – Noon

Experiment with items found in a kitchen! What happens when you combine certain things? Do they change? Uncover the science behind these reactions and get innovative as you think about how we can use everyday items in a different way!

Ages 8 – 12

Camp Fee: \$85 Member; \$100 Non-Member

Science of Sound

June 15 – 19, 1:30 – 4 pm

The properties of sound are the result of how different materials vibrate. Observe amazing patterns produced at different frequencies. Create your own musical instruments. Digitally produce magnificent melodies. Have fun making noise and moving to the beat of your own drum through a week of exploring the Science of Sound!

Design Zone

July 13 – 17, 9:30 am – Noon

Curiosity and innovation enabled humans to explore different environments. Challenge your curiosity as you design structures to withstand extreme conditions. Use basic coding to program Ozobots Design materials to take flight. Experience the capabilities of drones and more!
