### Chemistry in the Kitchen

June 19 – 23, 1:30 – 4 pm

Harness your young one's curiosity during a weeklong summer camp that engages their interests with simple experiments using common household ingredients in a fun and creative way!

### Water Wonders

July 10 – 14, 9:30 am – Noon

Water and life are integrally linked! Learn why water is so important to all living things during a weeklong adventure designed especially for budding scientists. Discover the changes water undergoes as it moves from one state to another and explore the many facets of water through activities, games, and more.

## Ages 8 – 12

Camp Fee: \$105 Member; \$125 Non-Member

### Space Camp

June 19 – 23, 9 am – Noon

Have you ever wondered why sometimes you can see the moon during the day or how two pieces of glass allow you to see objects millions of miles away? Learn the answers through games, simulations, and hands-on learning in a weeklong summer camp. Create your own star chart, learn how to use telescopes and travel to neighboring planets in the digital dome.

### Engineering Innovations

July 10 – 14, 1 – 4 pm

Is your youngster an engineer in the making? Spend the week exploring the fundamentals of engineering as you put your building skills to the test. Design your own mini rollercoaster, build a catapult, create your own rocket and much more!
