

Impact Report 2025–2026

Your Impact

Dear Friends of the Danville Science Center,

As we celebrate an incredible 30 years of serving our community, we are reminded that every milestone has only been possible because of you.

Over the years, your steadfast belief in our mission has allowed us to grow physically, programmatically and impactfully. This year was no exception. Together, we created unforgettable experiences through immersive exhibits, brought the wonders of exploration to our Digital Dome and expanded sensory-friendly programming to ensure families of all abilities feel welcome and included.

Beyond our walls, we connected with thousands of learners through outreach initiatives and virtual STEM programs, bringing hands-on science experiences directly into schools and communities. It is because of *your* generosity that we were able to provide reduced admission and memberships for SNAP recipients, welcome Title I students on field trips at no cost and ensure free access to our Butterfly Station & Garden.

Every discovery sparked, every question explored and every future inspired was made possible by your generosity. Thank you for helping us create a community where curiosity thrives, opportunities are accessible and science can enrich the lives of all.

With heartfelt thanks,

Adam Goebel
Executive Director

Carrie Syvanthong
Foundation Board President

Your Support Funded

61 campers

at 4 summer camps

10,514 students

on field trips

381 attendees

at sensory-friendly events

8,035 individuals

reached through off-site programs

320 pounds of trash

collected through river cleanups

11,458 views

for Stream into the V.O.I.D.

871 budding inventors

in our J.T. – Minnie Maude
Charitable Trust Creativity Lab

47 birthday parties

celebrated at the Science Center

1,950 butterflies

emerged from their chrysalis

The Danville Science Center Foundation is a nonprofit organization, established to support the Danville Science Center. Below are the operating costs for the year ending June 30, 2026 (unaudited).

Unrestricted Expenses

Science Center Support: \$98,415

Fundraising: \$11,556
